CAREER OBJECTIVE

Software Engineer with a strong focus on frontend development using ReactJS and modern web technologies. Passionate about building scalable, maintainable systems and delivering high-quality user experiences. Seeking to grow in a professional environment and contribute to real-world software products.

TECHNICAL SKILLS

- **Frontend:** HTML, CSS, JavaScript, TypeScript, ReactJS, Next.js, Tailwind CSS
- **Backend (Basic):** PHP (Laravel) | **Database:** MySQL
- **Others:** Git/GitHub, RESTful API Integration | **English:** Intermediate (B1.2)

WORK EXPERIENCE

Frontend Developer Intern | SweetSoft Company (10/2025 – 12/2025)

- Learned and applied ReactJS in real-world projects
- Developed UI based on available templates and design guidelines
- Customized and maintained reusable components
- Integrated APIs and handled basic state management
- Ensured responsive and cross-browser compatibility

PERSONAL PROJECTS

LinkSnap – URL Shortener Application (03/2026 – 04/2026)

- Built a full-featured URL shortener platform supporting custom slugs, expiration dates, click limits, password protection, and QR code generation.
- Developed a drag-and-drop Bio Page builder with live preview, customizable themes, social links, and responsive layouts.
- Implemented a real-time analytics dashboard tracking clicks, browsers, devices, operating systems, countries, referrers, and IP addresses.
- Designed and integrated RESTful APIs with authentication and OAuth functionality.
- Optimized database queries and structure to improve scalability and stability.

Tech: Laravel, MySQL, HTML, CSS, JavaScript
